

10th Interdisciplinary Conference NATURE – HUMAN – CULTURE

SESSION SCHEDULE

15.06.2019

<p>11.30–13.30 Special Panel: Poverty and Development Chairman: prof. dr Pahlaj Moolio</p>
<p>Paweł Bogacz – Lean agriculture – assumptions and propositions. Najid Ahmad – Global Warming and China’s role in Pollution Reduction: Modelling energy consumption, Foreign Direct investment, Pollution and Growth in China. Khuda Bakhsh – Does interest-free agriculture e-credit address financial problems of small farmers in Pakistan? Patrycja Stasiak, Adam Krawiec – The influence of society on shaping pro-ecological settlements. Izabella Janda – What are the reasons of communication failures? – Emmanuel Mounier’s idea of personal communication. Justyna Kopeć – Release of aluminum from different tea leaves and its transition to a solution. Michał Niemczak – Herbicidal ionic liquids as the new generation of crop protection agents against weeds. Tomasz Rzemieniecki – Double salt herbicidal ionic liquids comprising MCPA and dicamba. Thiep Vo Van – Concentration of heavy metals in Yellow seabream (<i>Acanthopagrus latus</i>, Houttuyn 1782) from Central Vietnam. Filina Sztandera – Gender identity as a personal right: On transgender people’s personal rights and more. Muhammad Ashfaq – Causal nexus between sustainable economy and agricultural finance: The case of Bangladesh</p>
<p>11.30–13.30 Special Panel: Geopolitics and International Security Chairman: dr hab. prof. UP Joanna Bar</p>
<p>Artur Jach-Chrzaszcz – The role of international cooperation in ensuring security against globalization-related threats. Jarostaw Indyk – Uneven conflict in the South China Sea, the technological growth of the military power of the People’s Republic of China. Iga Kleszczyńska – Geopolitical or geoeconomic paradigm? Analysis of U.S. foreign policy in the 21st century. Ewa Ciembroniewicz – The impact of globalisation on far eastern martial arts. Chinese martial arts as a case study. Dawid Gołąb – Anger, hate, fake news and their stimulation in the service of propaganda and politics, on the example of Crusades’ texts. Szymon Łenyk – The rise of China’s power – security and geopolitical implications for east and southeast Asia. Sylwester Szwedzki – Opportunities and threats of the first Catholic mission in Japan. Paweł Ostachowski – Protection of atmospheric air and climate as a subject of local government spending in the northern part of Małopolska voivodship (2010 – 2017) – comparative study.</p>

14.30-16.30

Session 1: Humanities and Social Sciences
Chairman: prof. dr hab. Ryszard Radwański

Zbigniew Razowski - The mechanism of pogroms on the example of anti-Jewish riots in the years 1918-1923 in the County of Chrzanów.

Mateusz Tofilski - The embodied art and architecture - the role of human-environment interaction and designing affordances.

Magdalena Grela - Fashion or costume - a discussion on traditional Asian clothing.

Katarzyna Łogoźna Wypych - Cats in advertisements.

Joanna Picewicz - The concept of sustainable development in the philosophy of Zdzisława Piątek.

Maciej Kruk - Language as a biological function

Muhammad Ichsan Fadillah - EU Soft Power Exertion by Poland to Indonesia through Ignacy Lukaszewicz Scholarship Program

Sylwester Szwedzki - On the edge of two cultures - analysis of the life of XVII century Jesuit apostate Christovão Ferreira (Sawano Chūan)

14.30-16.30

Session 2: Natural Sciences and Engineering
Chairman: dr hab. prof. UP Andrzej Kornaś

Damian Kaczmarek - Dicationic ionic liquids as new antifeedants.

Emilia Stańkowska - The use of chlorine dioxide as a water disinfectant for swimming pool footbaths.

Dominika Gajewska - Advanced oxidation process H_2O_2/UV as an effective way to reduce trichloramine concentration in swimming pool water.

Oksana Klochko - The predicting methods for the structural state of heterogeneous alloy.

Patrycja Stasiak, Adam Krawiec - Tiny House- houses of the future?

Patrycja Stasiak, Adam Krawiec - Hidden beauty of buildings.

Patrycja Stasiak, Adam Krawiec - Fascinating coverings of the shell structure.

16.30-17.30
Poster Session

- Monika Chruściel, Aleksandra Gatecka, Alicja Jakubek - Do bees play hex?
- Daria Czuryzkiewicz - Quaternary bis-ammonium herbicides with natural and synthetic auxin anions.
- Daria Czuryzkiewicz - Synthesis of tetraalkylammonium tryptophanates and their potential of application.
- Agnieszka Czyżowska - Cytotoxicity of zinc oxide nanoparticles towards human immune cells.
- Michał Fecowicz - Occurrence of bog-star (*Parnassia palustris*) in disappearing habitats.
- Damian Kaczmarek - Synthesis and surface properties of herbicidal ionic liquids.
- Kamila Kapłoniak - Biochemical and physiological responses of rye near-isogenic lines with different wax bloom subjected to soil drought stress.
- Jolanta Kedzior - Physical activity and nutritional behaviours among female students of different educational profiles.
- Justyna Kopeć - Bismuth bulk annular band electrode as a new electrochemical sensor for traces analysis.
- Anna Kurzak-Mabrouk - Sustainable development and enterprises of the hotel industry.
- Michał Niemczak - Bifunctional herbicidal ionic liquids.
- Artur Pliszko - Effect of pappus removal on seed germination in *Solidago x niedereideri* (*Asteraceae*) and closely related species.
- Svitlana Romaniuk - Mathematical modeling in material science for technical profile students.
- Tomasz Rzemieniecki - Synthesis and physicochemical properties of naturally derived ionic liquids based on quinine.
- Magdalena Skórka - Evaluation of manganese as a protectant factor of plant cells under environmental stress conditons.
